

# Hosted event calls

If your conference call has 30 or more participants, our hosted event call service is just for you!

Speakserve

Professionally managed event calls you can trust

Leave the running of your next event call to us so you're free to focus on your message

Our world-class operators will handle every part of your call, ensuring it is seamlessly managed from start to finish. So whether you're delivering quarterly financial results, an important corporate announcement or presenting an investment case to your audience, our team will assist you. Our experienced operators will be on hand to introduce key speakers, manage your Q&A's and provide a closing statement to wrap up the call.

In addition to this, every event call is accompanied by an attendee list detailing every participant that joined the call and if requested, a high-quality audio recording and transcription will be provided. Transcriptions can be expertly translated into any language with Alice (our AI) to suit the multi-nationality of your participants

## How you benefit?

Take the pain out of running your next event call with an experienced operator that manages your participants and the flow of your call. Keep in touch with them at all times via the chat function

Have the flexibility to book your event call without assistance from your online portal

Make amendments to your event call at any time from your online portal without additional charges

Worldwide reach means you can connect guests to your event call from 120 locations across the globe

Smart transcriptions and translation services courtesy of Alice (our AI)

Keep tabs on your participants with pre-registration and post-call attendee reports

View your event call as its in progress with Live View
