

Specialised room types

Make it even easier to schedule your next conference call with our specialised meeting room types

Normal rooms

Start talking without any restrictions

Normal rooms make it as easy as possible for everyone to join your conference call and start talking immediately as there isn't any requirement for entering a PIN when accessing the room – it's built for convenience!

How do you benefit?

-  Make it as easy as possible to join your next conference call
-  No PINs help to remove any potential barriers to joining
-  Use dial-out to prevent any delay to the start of your call
-  Use LiveView to see who's on your call and improve the flow of the conversation by managing who can speak and when

Chairman rooms

Have more control over your call as the host

Our most popular room type. Chairman rooms provide additional security because they can only be accessed with a PIN. Separate PINs are generated for the host and for your participants. Using a chairman room means you have more control over when your call starts as your guests can only begin talking when the host PIN is activated.

How do you benefit?

-  Prevent unwanted access to calls with an extra layer of authentication
-  Ensure the call cannot start until the first host joins
-  Use dial-out to prevent any delay to the start of your call
-  Use LiveView to see who's on your call and improve the flow of your conversation by managing who can speak and when

Moderated rooms

Have ultimate control over your event calls

If you're hosting a large conference call with 30 or more participants, a moderated room is what you need. With a moderated room you have complete control over your participants as they join your call and can access all the unique features in LiveView.

Want us to host your next event call?

Phoenix rooms

Maximise security with smart PIN regeneration

Our smart phoenix rooms are designed to ensure that only those invited to your call can access the room. The system automatically regenerates new PINs for the room every time a call is completed which avoids unwanted access to your next important call. This room type is recommended for industries such as finance and law where call security is paramount.

How you benefit?

Self-manage your event calls for up to 1000 participants

Access unique in-call features such as private lobby and facilitate Q&A

Use dial-out to connect participants and prevent any delay to the start of your call

Use LiveView to see who's on your call and improve the flow of the conversation by managing who can speak and when

How you benefit?

Prevent unwanted access to your calls with PIN regeneration

Ensure maximum security for you and your participants

Use dial-out in-call to connect participants and prevent any delay to the start of your call

Use LiveView to see who's on your call and improve the flow of the conversation by managing who can speak and when
